patched datarescue ida pro v5.0.0.879 advanced.rar How can I access the feature in Datarescue ida advanced v5.0.0.879? I am trying to use IDA with C# but cannot access the function from the IDA file. I have some other programs that support IDA and I want them to be available from my application, but they don't exist. When I run IDA v5.0.1.172 it gives me the error "Unable to find the DLL" and as far as I can tell IDA won't be found on my machine because it doesn't exist.
